Game Mats

This large 14 x 24" mat is the standard in game mats for many popular collectable card games like Magic, Yu-Gi-Oh, and Pokémon. The image is permanently printed in full color via dye sublimation resulting in a soft and flexible mat that retains the vibrancy and can be rolled or folded for easy transport. Game mat has a heavy duty rubber base and is available in 1/8" or 1/16" thickness.

Layout Notes

- There is about a pixel width of encroachment on knock out text or fine lines which can be compensated for with a 1pt pre press stroke.
- Industry standard allows for 1/8" bleed as soft top products are a manual process and there is some shift in printing and manufacturing the mouse pads. The human eye can detect up to a 1/16" shift in text running parallel to the edges. We do not recommend borders or parallel lines as these will emphasize the shift and items may appear cricked or tilted. While obviously we will do all we can to minimize this effect we can not guarantee the registration on an order.

Hear what our customers have to say

Hello,

We just received the mouse pads and they look amazing! You guys did such a great job. It's a little scary placing such a big order with an online company and not knowing exactly what you're going to get. We usually use a local company and don't take any chances but going with CustomMousePad.com we ended up with a better product in faster time at a better price.

Thank you,

Hillary Mettle
